WELCOME!

In May, the School Committee unanimously approved the FY 2027 budget. The next step is City Council approval.

In the coming month, the School Committee is excited to attend our three high school graduations - Salem Prep, New Liberty Innovation School, and Salem High School-- and to host interviews and visits with the three finalists for superintendent. Information about each candidate can be found [here](#).

UPDATES

Salem Public Schools academic growth outpaced 215 other school districts. Salem's jump in the growth rank from 31 to 216 over the previous two years was the third highest jump in the Commonwealth during that period. The School Committee commends our students and educators for their hard work!

Students from the new Sarah Parker Remond School presented their research on their school's namesake. Students showed off their advanced research skills and let the community know how proud they are to have their school named after an important abolitionist and activist.

SHS College and Career Director Meghan Sousa and Principal Glenn Burns presented on changes and improvements to college advising. The presentation can be found [here](#).

The May 5th tax override vote in support of a new Salem High School passed, paving the way for the next generation of Salem students to thrive in a state-of-the-art new building!
